Sperling Industries Ltd. is an industry leader in structural steel manufacturing and mechanical equipment supply and install. We are looking for an individual to join our team as an Industrial Mechanic/Millwright.

Summary:
Duties primarily consist of physical labour on construction sites. The work may involve new construction, repairs, maintenance, modifications or additions to structural steel and agricultural equipment. Experienced knowledge of general steel fabrication is required.

Primary Responsibilities:

- Install and align stationary industrial machinery and mechanical equipment
- Adjust machinery and repair or replace defective parts
- Load/unload construction materials as well as general site maintenance and clean up
- Create, read and understand all job hazard assessments while following all applicable safety procedures and practices

Education, Experience, skills:

- General labour skills in the construction industry are required
- Welding experience is considered an asset
- Available to work away from home as well as extended shifts, night shifts and weekends when necessary
- Must be physically able to perform the labor tasks assigned
- Certificates related to the steel industry is an asset

Compensation:

- Starting Salary $35-$42 plus an hour depending on qualifications and experience.
- Overtime at 1.5x
- 6% vacation pay and 4% general holiday pay on each weekly pay cheque
- Comprehensive Dental/Medical benefits package after a 3-month waiting period
- RRSP contribution program for long term employees
- Stable year round employment

Interested applicants should submit their resumes to:
