

Sperling Industries Ltd. is seeking an experienced Mechanical Designer to join our team. Our specialty is the execution of complex, multidisciplinary projects involving structural and mechanical trades. Our company supports clients in a wide variety of industries mainly focused on Agri-Food Processing. We are continually looking to improve our team to keep up with the changing industries and the pace of technology, and are looking for an individual to learn and advance with us. We strive to retain employees for the long term and believe in maintaining mutually beneficial relationships that enable our company to grow simultaneously with our employees.

Summary:

Our design and engineering department is a team of driven individuals with diverse skillsets within the industries we practice. We work closely with our shop and field personnel in creating efficient, safe, and high functioning solutions.

Education and/or experience:

- Experience in the design process and a mechanical aptitude is an asset
- Design experience for steam, process, and utility piping and knowledge of ASME B31.1 and B31.3. Includes preparation of Flow and PID's, pipe routing, stress analysis, Isometric and QA/QC requirements for different systems.
- Experience in coordinating on projects with other design professionals (Structural Primarily)
- Project Management and execution experience
- Design software experience such as Autodesk Inventor, AutoCad, or other 3d design suites

Skills and Qualifications:

- Process flow and plant layout for grain cleaning and milling, food processing, or other industries
- Experience in design of conveyance systems (pneumatic or bulk conveyance) is an asset
- Design of aspiration and airflow systems is an asset.

Compensation:

We anticipate that the starting salary will be in the range of \$28-\$35/hour paid weekly, based on qualifications and experience, along with a range of benefits, including:

- Extended health, dental, and vision care for long term employees (3 month waiting period)
- RRSP with company match program for long-term employees (3 month waiting period)
- 10% vacation/stat pay entitlement
- Overtime remunerated at 1.5x
- Personal Protective Equipment and travel expenses borne by employer
- Training and development opportunities with professional fees borne by employer
- Job stability and the opportunity to build a long-term career
- Staff BBQs, Christmas party, and team building
